# *Visionary Politics.*

---

DRAFT

**Pirate Party Australia** is a political party sailing at speed to future representation federally and at state levels and has front of mind recognition of it's values with all Australians. It works with other Parties, is impactful in Australian politics, is professional and competent and is trusted for integrity by principles at all levels of the Party. We are not a protest movement, nor an advisory. We exist to represent the voice of the citizens of Australia with unique insight, innovation and competence in their governance.

Our membership and representation is diverse. We are a solver of problems with common sense, science and evidence. We have the will and appetite to take risk and make innovation real. Every Australian's life is improved from our actions, policy and representations.

---

*"there has never been a time that Pirate Party Australia has been more relevant to Australians than right now"*

– Luke Housego

# *We are on a Mission.*

DRAFT

**Pirate Party Australia** exists to accomplish it's Mission. It is why we all participate and how we see our progress. This is our measure of purpose and meaning to us as Pirates.

- § **Policy.** We give voice to our views and follow them by being creators of policy.
- § **Differentiation.** We are unique and our views, policy and culture stand us out. Often similar to others we are never the same.
- § **Legacy & Community.** We are from the first cyber democracy political activists and cherish both our community and our Legacy.
- § **Values.** Our values, the highest being Civil Liberty and Digital Freedom are what define us. We hold to our values above all.
- § **Representation.** We are the voice of many now and many more in the future. Our voice is heard through active and effective engagement in the Australian political processes as representatives of the citizens of Australia.

- § **Visionary.** We are the champions of Thought Leaders and change. No party holds to the importance of change at its core as we do.
- § **A Hub of Progress.** We believe in sharing and helping, even our competitors. We are the easiest and knowledgeable path to connect to those politically making the world better.
- § **A Real Choice.** Not content to Influence, Pirate Party Australia is always more relevant, more inclusive and stronger on it's journey to be a real choice for Governance.
- § **Democracy++.** As innovators and passionate for representation we are making Democracy increasingly transparent and inclusive in how we act, our systems and our policies.
- § **Evangelists.** We proclaim the importance of our values and we constantly recruit. All who share the Pirate values are welcomed.
- § **Swarm Intelligence.** We are Legion. The power of people that are free is changing the world. We are a result of and part of this change.

# Pirate Values

DRAFT

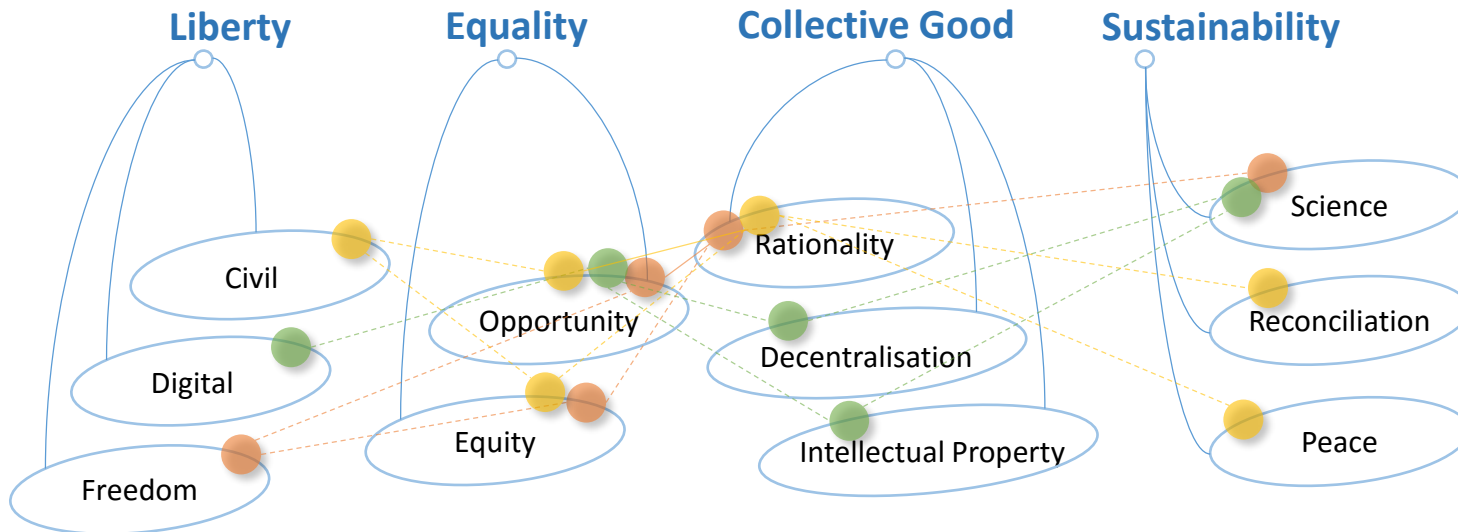

**Liberty** Freedom. Offline. Online.  
Transparency and Accountability of  
Government. We fight oppression and  
slavery in it's many and new forms.

**Equality** A fair go is intrinsic to Australia and to  
Pirates. Race, culture, beliefs, history  
must not hold back any Australian  
from pursuit of the potential.

**Collective Good** We are participants in a society. We  
give and we receive support willingly  
for the benefit of the People.  
We empower all, we are rational, we  
share and together we remove the  
barriers to Australia's betterment.

**Sustainability** Facts, scientific method, data drive our  
insight and knowledge for sustainable  
policies and a sustainable future  
environment. We look to the long term,  
for future generations and to mend  
divisions and injustices of the past.

## Pirate Party Australia Strategic Values 2017/18

## Strategic Themes

- Civil Liberty**  
Freedom of speech. Justice. Equality. Social equity. Privacy. Government Accountability. Reconciliation. Refugees.

## History

Founded in Sweden in 2006 by Rick Falkvigne, Pirate Party became a global movement representing civil and digital liberty and is now a significant political party in many countries in Europe.

One of his TEDx Talks is here:  
<https://youtu.be/zdiFV-AfbBA>

In **Australia** we are a registered political party since 2008 and have stood candidates for the Federal Senate since then as well as some State elections.

## Culture

Pirates represented an aspect of activism and direct action to make a better world for average people in the face of corruption and slavery. Pirate ships were highly democratic organisations that by necessity were also organisationally and militarily effective.

Born on the internet, we are also a face and a voice to the culture of hackers, engineers and enthusiasts that are a new oppressed class by those with power abusing laws originally intended to protect the people equitably from control and monopolies. Like the seaborne pirates of old, we fight this oppression.

## Join

We are constantly looking for new talent that wants to make Australia better.
